Urn Plot Tracking

Up to 8 urns can go into one plot. The first 4 urns, position 1 - 4, are at a 4 foot depth. The next 4 urns are at a 2 foot depth.

The first urn is placed in Position 1. We recommend spouses be placed in Position 1 and Position 5 so a memorial tablet for the couple can be placed directly above.

The headstone section measures 2 feet from the top of the grave, in the next 2 feet the urns for position 1 + 5 are placed and so on.

The whole length of the grave is 10 feet. Some older graves might have urns placed differently. If there has already been an interment of an urn please check with us.

Call the office if there are questions 403-678-1599 or email cemetery@canmore.ca
